

Flock Power & Fabric Module Specification

Sales Order No.:

Customer Order No.:

- Key:
- Visible standard power module positions
 - Non visible standard power module positions
 - Fabric Panel
 - Work Surface

Power Modules:	
Type	Description
A	3 fused power sockets
C	1 dual CAT6 unshielded data socket & 2 fused power sockets
D	1 dual USB charger & 2 fused power sockets
E	1 dual CAT6 unshielded data, 1 dual USB charger & 1 fused power socket
F	1 HDMI, 1 dual USB charger & 1 fused power socket

Please Note:

The numbering on the diagram is based on looking at the unit from the front facing internal side. The diagram shows a curved section with internal benches, two screens high; the same numbering system can be used on any Flock configuration. Only 1 power unit can be placed in each screen, it is not possible to have the power units on both sides of a single screen. All other positions are not limited.

Standard Power Modules:		
Position	Module(s)	Type
1. Inner bench left		
2. Inner bench centre		
3. Inner bench right		
4. Outer bench left		
5. Outer bench centre		
6. Outer bench right		
7. Centre inner screen 1		
8. Centre outer screen 1		
9. Centre inner screen 2		
10. Centre outer screen 2		

Fabric Specification:		
Panel	Fabric	Metres
A.		2.2m
B.		4.0m
C.		1.6m
