

connection

Purpose

"We're called Connection for a reason. We design and manufacture innovative furniture products that bring people together to connect, collaborate, create, learn, and have a positive impact on the workplace and the wider world."

Legacy

Established in Huddersfield, UK in 1977, Connection is a British brand with British sourcing and manufacturing at its heart.

Having grown from humble beginnings, once creating a limited range of operator and task seating chairs, Connection is now a large-scale, established designer and manufacturer of a diverse collection of furniture products.

Still based in Yorkshire, UK, Connection continues to expand following a move to a brand new state of the art Head Quarters and manufacturing facilities in the Autumn of 2022. Here experts work alongside state of the art design, prototyping, production and upholstery facilities.

Acquired in February 2022 by Flokk, Connection now forms part of a wider group. We share an aligned vision, common values, and a passion for furniture design. Together we now share an unrivalled portfolio of products that are well positioned to respond to the ongoing fluidity of the workplace.

Making Space that Works

With connection, we create space that works. It is more than a statement, it is intrinsic to who we are and governs everything we do.

We understand space is a critical asset. The way it is defined influences physical and emotional attitudes, creates culture and affects the productivity of those within it.

Connection is our specialist in providing innovative commercial furniture that adapts to the ever-changing ways in which people effectively work and learn. Allowing customers to create space that works harder, smarter and altogether better.

Our insight into the needs of modern commercial, educational and public-sector environments gives us an understanding of their evolving working practices. And by understanding how people work, we can create the space that works around them.

Sustainable design

We create Connections without losing sight of the wider, connected picture. Whatever we do should make the world a better place. It should protect the environment and make people's lives better. An interconnected, complex world makes it more important than ever for organisations to have a clear vision for the world and not just business.

Sustainability within design and manufacturing is critical in ensuring the health of our planet today and in the future. The environmental impact of a product and its effect on the planet is ultimately set into motion at the very first phase of design, with the selection of materials, processes and the factors required to bring a complete version of the initial concept to market.

This is why we pay close attention to all facets of our process, starting with an idea and ending with an innovative piece of commercial furniture that effectively supports our sustainability goals, as well as make our customers happy.

Our approach to sustainability is simple and underpinned by three key pillars: Manufacturing, Materials and Design. This is a good fit with the philosophy behind Flokk's circular design criteria (5III), which applies to new Connection designs going forward.

Segments & Product Categories

Connection is our specialist brand in furniture that compliments and interacts with architecture through soft separations.

A nomadic product approach, we offer versatility, modularity & flexibility to a category that is otherwise limited by the permanent nature of architecture.

Addressing commercial offices, public sector offices, hospitality and education.

Modular Landscapes

Spatial soft seating

Furniture

Camden

Design by Richard Jones.

The Camden lounge chair creates a significant feeling of nostalgia through soft, tactile shapes and stunning finishes, resulting in a calming environment. The hand-crafted solid oak frame alongside a plethora of fabric options creates a relaxing seat which envelopes the user. Also available with a metal base option for a more robust aesthetic.

Camden

A balanced lounge chair inspired by mid-century British design.

Product Information

- Hand crafted solid oak frame, available in natural oak, wenge stained oak and black stained oak
- High quality premium foam
- Premium quality webbing for maximum seat comfort
- Wide choice of fabric options
- Metal chassis construction on wooden armed version
- Metal frame version available in textured black with solid oak arms in a choice of natural oak, wenge stained oak and black stained oak

Dixi

Design by Ratio Design Associates

The Dixi range is a statement seating collection that combines striking design with the need to achieve privacy in open areas. The high back chair offers all-round privacy, whilst the winged back design provides a secluded, reduced noise environment without affecting the user's visual privacy. Matching coffee tables are also available as part of the Dixi range. All chairs are fully upholstered and available in a wide variety of fabrics. Multiple base options, including fixed, swivel, cage and wood are available.

Statement chairs

Harp

Design by Incognito & Design Candy.

The modern workplace landscape increasingly recognises the need for a multitude of spaces, including shared breakout spaces, private work, relaxation zones and more orthodox work settings. Adaptable, reconfigurable products that create 'neighbourhoods', enabling spaces to evolve easily and respond to new and emerging workplace trends. These 'hackable spaces' enable the occupier to make products and spaces their own, empowering the user to build a space which best suits their requirements.

connection

Harp

Contemporary multizone configurations.

Hygge

Design by David Fox Design.

The Hygge range fuses Scandinavian sentiment with contemporary design. Pronounced 'hoo-gah', this Danish word describes 'a quality of cosiness and a feeling of contentment'. The gentle contoured design hugs the user and generates an intimate and cosy feel whilst the wooden outer shell creates a strong distinctive look. Available as both high-back and low-back editions with either a solid oak 4-leg, broomstick or rocking base.

Hygge

A Scandinavian inspired seating range with a cosy, contemporary design.

Product Information

- Cold cured moulded foam seating with oak show-wood outer shell construction.
- Low and high back options.
- 3 solid oak base options: swivel broomstick, fixed 4-leg base or rocking. Black stained oak and wenge stained oak also available.
- Available in a wide range of fabrics, vinyls and leather (restrictions apply).

Kuppel

Design by Rivr.

Inspired by the Norwegian word for dome, Kuppel is a personal workspace solution that enables the user to escape the distractions of the open-plan office. The soft, circular shape invokes a sense of calm and seclusion, enabling feelings of peace and relaxation to aid physical and emotional wellbeing within a space.

Kuppel provides an acoustic shield and reduces visual distractions, whilst the generous 1.2 metre wide workspace, complete with power and a large tablet arm, promotes a prolonged dwell time, lending itself perfectly to the fast-paced modern workplace.

Kuppel

A personal workspace solution designed to provide seclusion and focus.

Product Information

- Single seater work booth.
- Multiple upholstery options, 3 areas to bespoke, outer dome, inner dome, seat & back cushions.
- LED strip lighting.
- Left or right hand writing/laptop tablet.
- Available in 12 MFC colours and 5 RAL finishes.
- Pixel power and charge point.
- Designed & made in the UK.

Product Code: SKU1BOOTH

Description: Single Seater work booth including tablet arm and led strip light with PIR sensor.

Leo

Design by km34 Design.

Leo is defined by its clarity of form, an angular silhouette softened by generous comfort. The proportions are deliberate, the lines precise, giving the collection a composed, architectural presence within a space.

Sprung seating provides a sense of structure and support, whilst removable feather-filled arm cushions introduce a softer, more tactile dimension.

connection

Leo

Refined design. Exceptional comfort.

Product Information

- Armchair, two and three seat sofa options.
- Modular design for multiple configurations.

Muse

Design by Hilary Birkbeck

The Muse range is an intriguing hybrid of a statement seat and a privacy booth allowing the user to escape the distractions of an open-plan space. The enclosed high back privacy booth creates a secluded space by reducing peripheral vision and buffering external noise distractions. A perfect place of refuge in public areas including open-plan offices, airport lounges, waiting areas and hotel lobbies. Muse is available in a metal or solid oak frame.

Muse

A statement seating range with acoustic properties for enhanced privacy.

Product Information

- Privacy booth range available with metal or wood base
- Available in a wide range of fabrics, vinyls and leathers
- Dual upholstery available
- Metal frame available in a chrome effect or matt black finish
- Solid oak 4 leg base available in natural oak as standard.
- Wenge stained oak and black stained oak also available.
- Optional writing tablet available with black or white work surface

Product Code: SMS

Oko

Design by LucidiPevere

Oko is a swaddling, nest-like seat created to bring softness and comfort into commercial environments. Its plush seat and cushioned backrest take inspiration from the gentle curves of a cocoon, inviting users to settle in and relax. A rigid outer back panel supports the form while doubling as an elegant decorative element.

A sleek, sculpted outer back shell not only defines Oko's silhouette but also adds a refined decorative touch. Choose from rich wood finishes; natural oak, wenge stained oak, or black stained oak - paired with multiple fabric options.

Oko

An elegant lounge chair inspired by the curves of a cocoon.

Product Information

- Fully upholstered with ply back shell options.
 - Fixed and swivel base options available.
 - Available in multiple fabrics and a wooden back shell, in natural oak, wenge stained oak or black stained oak to enhance the design's versatility.
 - Designed with sustainability in mind, the seat and back cushions are engineered to be easily removed and reupholstered.
- To uphold the silhouette of the Oko chair, we recommend selecting from the following fabrics:
Kvadrat - Elle, Safire, Ecriture, Moss.
Camira - Snug, Yoredale.
Warwick - Plush.
Panaz - Elkie.

Terrain

Design by Webb.

Just as terrain shapes the physical world, Terrain reshapes the interior landscape, transforming seating from a static object into a dynamic architectural element that influences flow, function and feeling.

Designed as a modular system, Terrain enables designers to sculpt space with intention. Its flexible configuration supports evolving workplaces, educational settings and retail environments, adapting effortlessly as needs change.

connection

Terrain

Shape your landscape.
