## NON-STANDARD ORDERS

The definition of non-standard orders (special products) are products and configurations that are not mentioned in the pricelist. Should an order include both standard and non-standard products, the lead time on all products will default to the longest lead time. General lead time for non-standard products is on request and depends on the configuration of the products.

## ON REQUEST FABRICS/LEATHER AND CUSTOMEROWN FABRIC/LEATHER

When the customer requests the product in the fabric we do not know, we need to test the fabric. We in Turek can arrange the samples from the manufactures we cooperate on regular basis- the fabric manufactures are listed in Offecct price list. Apart from that we ask customers to send us the fabric for the test. To test the fabric we need a loose fabric sample. Size 15cmx20cm will do. If the customer knows the color, they should send us that specific sample, if they do not it yet: we should get both: the brightest and the darkest color of the pallet. Such test is free of charge. In situations when the sewing department is not sure if they can approve the fabric based on a small fabric pieces, there is a need to do the full upholstery test. Situations in which a full upholstery test is needed are very rare, so we do not have a process for this. It depends on the circumstances how we handle this, there is a possibility that extra charges for the customer can occur.

## WARRANTY

The warranty for material and construction faults is five (5) years from the delivery date. Wear, tear and damage on lacquered parts, glides and felt glides, and Velcro for Soundwaves that have been moved, are not covered by this warranty.

Important: To ensure and protect the original functionality and design of OFFECCT products, the use of non-original spare parts for repair or maintenance will void the general OFFECCT warranty.

## MAINTENANCE GUIDE

### Care of fabric upholstery

Regular vacuum cleaning is recommended. Vacuum clean the chair with a furniture brush or wipe it with a clean white cloth or sponge slightly dampened with lukewarm, clean water. Marks and stains should be removed with a proprietary cleaner.

### Care of leather upholstery

Wipe with a slightly damp cloth and gently rub dry. Good proprietary hide food should be applied at least once a year and more often if the leather is in a dry atmosphere or close to a heat source. For additional maintenance advice please contact our customer service team or our website flokk.com

### Care of gas stem

Gas stems should be periodically wiped clean with a cloth and general-purpose solvent, then a fingertip of light grease applies.

## ENVIRONMENT AND QUALITY

Environmental considerations on our products and the manufacturing of our products are at the heart of our business. Flokk's Environmental Management system is thus ISO 14001:2015 certified. Environmental labels; Swedish Möbelfakta, EPD and GREENGUARD Gold.

# Important information

## UPHOLSTERY MATERIAL

All prices include upholstery material and are divided into price groups. For split/divided upholstery, please contact Offecct support for a quotation. Prices do not include pattern matching. Offecct reserves the right to determine the pattern direction and fabric face if there are no written instructions from the customer. For stiff fabrics, Offecct reserves the right to add seams on some models to ensure the best upholstery results. When choosing fabric outside Offecct's standard collection, any additional costs for upholstery samples will be charged to the customer. Textile materials may contain excess dye. Offecct is not responsible for dye transfer on or from textiles.

The Nordic Swan Ecolabel certifies that fabrics labelled with the EU Ecolabel meet European environmental labelling requirements for textiles.

Offecct is responsible for purchasing fabrics and other upholstery materials and reserves the right, in certain cases, to refuse specified upholstery materials if the final result is not expected to meet Offecct's quality requirements.

## NOTE

Materials may vary in shade. For complementary orders in the same material, colour may vary from the previous order due to different dye batches. For example, Airberg, Membrane, and Soundwave® in standard design or Soundwave® in fabric Europost 2.

## VELVET FABRICS

Velvet fabrics receive marks when stacked, so velvet is not recommended for stackable chairs. Pressure marks caused by other reasons may disappear when the fabric is steamed.

## FABRICS AND LEATHER

To guarantee product quality, Offecct takes responsibility for purchasing fabrics and other upholstery materials. In certain cases, Offecct reserves the right to refuse the use of recommended fabric if the final result of the product is not expected to meet Offecct's quality requirements.

## LEATHER

Standard leather: Elmosoft, or equivalent, depending on the product. Leather has natural irregularities and individual marks due to healed scratches and insect bites, which should be regarded as proof of authenticity and quality, indicating that the animals lived outdoors.

## DIRT-REPELLENT TREATMENT AND COATED FABRIC

A surcharge applies for dirt-repellent treatment and coated fabric. For coated fabric, please contact customer services for approved products and lead time.

## FILLING

High-quality foam is used as the upholstery filling material in all our products, mainly foamed polyether. Most filling materials meet the requirements of Cal TB-117-2013 Section 3, the so-called "cigarette test."

## CMHR

CMHR (Combustion Modified High Resilience) is a highly resilient flame-retardant foam that meets the UK Consumer Protection Act, Furniture and Furnishings (Fire) (Safety) Regulation 1988, Schedule 1, Part 1, ignition source 5. The surcharge for CMHR foam is based on the regular gross price (in price group 1) for the product + 4%.

Please note: CMHR often results in firmer seating comfort, particularly in our soft sofas. Please contact Offecct support for approved products and lead time.

## PRODUCTS TO BE DISCONTINUED

Discontinued products are marked in the price list. Please contact Offecct support for current stock levels.

## LACQUER AND STAIN

We offer a variety of RAL colours for metal frames according to Offecct Flexicolour. For other wood stains, please contact Offecct support for a quotation.

## CUSTOMISED TABLES AND OTHER LAMINATES

Offecct reserves the right to determine the direction of pattern and fibre if there are no written instructions from the customer. For other varieties of wood, laminate, or materials for table tops, please contact Offecct support for a quotation.

## WOOD

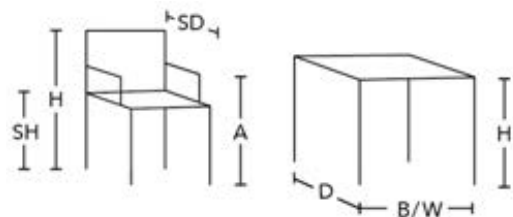

The wood used in our products is sourced from responsibly managed or certified forestry, and the board material used meets various standards for formaldehyde, such as US EPA TSCA Title VI and E1/E05.

## GLIDES

All our chairs and armchairs (except sledge-based chairs) are fitted with ABS glides as standard unless otherwise stated. Sound-absorbing felt glides can be ordered at an additional cost for parts of the Offecct collection. Please specify the requested glides when placing your order.

## MEASUREMENTS

Specified measurements are partly intended for interior planning and to indicate the function, ergonomics, and comfort of the product. Specified (nominal) measurements are rounded up to the nearest 0.5 cm. Measurements of the products have tolerances depending on their size, material, and upholstery. If tolerance intervals are required, please contact Offecct support.

## Good to Know:

- **Handle with care!** A damaged edge or scratched surface can, in exceptional cases, cause the glass to crack suddenly. Avoid collisions from the side, as this is where the glass is most vulnerable.
- **Avoid corrosive cleaners.** When cleaning glass, do not use cleaners containing hydrofluoric or phosphoric acid, as they are corrosive to the glass surface.
- **Avoid harsh cleaners.** Do not use abrasive cleaners, powder-based cleaners, scouring pads, or other harsh materials to clean glass products.
- **Do NOT use acidic silicone.**
- Every adhesive or chemical compound must be tested to ensure it does not affect the edge of the glass.

## Care Advice:

- Wipe with a clean, damp cloth, then follow with a clean, dry cloth.
- If any substance spills, wipe it off the table immediately.

**Flokk is a family of design-led brands shaping workspaces where people and organisations thrive.**

From our roots in Scandinavian task seating design, we've grown into a global leader in workspace solutions – creating furniture that supports people wherever and however they work.

The name Flokk comes from the Norwegian word for “group” or “herd”. It reflects our belief that workspaces should bring people together – to focus, collaborate and connect.

We believe great design can do more than look good. It can enhance well-being, enable productivity, and help reduce environmental impact. We work closely with architects, designers, and businesses to shape workspaces where people feel supported, valued, and able to do their best.

Our collection of brands brings this purpose to life – delivering thoughtful, durable solutions for every kind of workspace and every kind of person.

Our growing family includes renowned names such as HÅG, Offecct, Giroflex, RH, Profim, Stylex, 9to5 Seating, Via Seating, Connection, and Malmstolen – each with its own identity, yet united by a shared commitment to design quality.

Headquartered in Oslo, Norway, we have production sites across Europe, North America, and Asia, including Røros (Norway), Nässjö (Sweden), Turek (Poland), Mirfield (UK), Zhongshan (China), Hawthorne (USA), Delanco (USA) and Reno (USA). Our global reach is supported by sales offices in over 15 countries, serving customers in more than 80 markets.

With around 2,000 dedicated employees, we work together to bring better spaces to life and to fulfil our vision; to **inspire great work**.
