FONT
FAMILY

Originally designed for Sweden's Nationalmuseum in Stockholm, Font by Matti Klenell has evolved into a highly configurable furniture family for contemporary public interiors, hospitality and workplace environments. The collection is built around one defining gesture — a circular tubular backrest that creates a strong graphic identity and architectural clarity.

What began as a site-specific solution for one of Sweden's most important cultural institutions has grown into a flexible modular system including sofas, benches, curved modules, meeting chairs and tables. Font allows architects and specifiers to create linear, circular, collaborative or private layouts while maintaining one coherent visual language across an entire project.

Inspired by typography, Font modules work like letters that form spatial compositions. The family combines refined comfort, carefully balanced proportions and timeless Scandinavian minimalism with the flexibility required for real architectural projects. Designed for longevity both emotionally and physically, Font avoids trends and visual noise while offering long-term relevance in public spaces.

ABOUT THE FONT COLLECTION

- Sofas, benches, chair and table

RAL Flexicolour is optional
- Upholstery: Fabric or leather
- Elmosoft is standard leather. Extra seams occur when selecting leather
- Linking devices are required when connecting multiple sofas/benches
- Black glides

QUALITY

5-year guarantee:

The warranty for material and construction faults is five (5) years from the delivery date. Wear, tear and damage on lacquered parts, glides and felt glides, and Velcro for Soundwaves that have been moved, are not covered by this warranty. Important: To ensure and protect the original functionality and design of OFFECCT products, the use of non-original spare parts for repair or maintenance will void the general OFFECCT warranty.

ABOUT THE DESIGNER

Matti Klenell (b. 1972) graduated in interior architecture from Konstfack – University of Arts, Crafts and Design in Stockholm in 1999, and founded his studio in 2000. Klenell moves with ease between handicraft and industrial design. He has created art glass as well as designing furniture and lamps for mass production for companies such as Fontana Arte and Iittala. Klenell has received the EDIDA Swedish Design Award four times, and several of his designs are represented in museums in Sweden and abroad. Klenell is known in the Swedish design community as a facilitator and has been responsible for the Form programme at Beckmans College of Design in Stockholm, as well as design projects between Sweden and Taiwan. In 2015 Klenell was given the honourable task of overseeing aspects of the new interior for Nationalmuseum in Stockholm.
